

## Water Main Break on Broadway Street Results in Temporary Road Closure

**Press release date:** 2010-05-21

WEST LINN - On Monday, May 17 an 18-inch water main at 5622 Broadway Street failed. Due to the pipe condition, City crews were only able to make temporary repairs to restore water service to 48 homes. Parts have been ordered to make the permanent repairs, however these parts will be two weeks out.

Damage to the road was extensive enough that we believe it should be closed to vehicles until permanent repairs are made to the pipe and road. Bus services, garbage services, police, and fire have been notified of this temporary closure.

If you have any questions, please contact the West Linn Public Works Department, Water Operations Division at (503) 656-6081.

Thank you for your cooperation and patience as we perform necessary maintenance on the City's water system.
